

HSIE

GE1-2 identifies ways in which people interact with and care for places

- consideration of how a place can be cared for e.g. a park, farm, beach, bushland
- understands that rubbish is taken to the local landfill for burial and recycling is taken to a MRF

PDHPE*

PD1-7 explores actions that help make home and school healthy, safe and physically active spaces

PD1-9 demonstrates self-management skills in taking responsibility for their own actions

- describe choices and factors that have an impact on their own and others' health and safety, e.g. pollution

Stage Two

SCIENCE

ST2-10ES-S investigates regular changes caused by interactions between the Earth and the Sun, and changes to the Earth's surface

- identify that scientific knowledge helps people understand the effect of their actions

ENGLISH

EN2 1A communicates in a range of informal and formal contexts by adopting a range of roles in group, classroom, school and community contexts

- interact effectively in groups or pairs, adopting a range of roles

HSIE

GE2-3 examines differing perceptions about the management of places and environments

GE2-2 describes the ways people, places and environments interact

- investigate sustainable practices that protect environments
- discussion of ways waste can be managed sustainably
- describes where waste can be taken and what happens at each, eg recycling at MRF and landfill

Stage Three

SCIENCE

ST3-7MW-T explains how the properties of materials determines their use for a range of purposes

- investigate characteristics and properties of a range of materials and evaluate the impact of their use

HSIE

GE3-2 explains interactions and connections between people, places and environments

GE3-2 compares and contrasts influences on the management of places and environments

- identification of ways people influence places and contribute to sustainability
- description of who organises and manages places e.g. landfill, MRF, local council

HT1.1 identifies and describes significant people, events, places and sites in the local community over time

- identify a site or part of the natural environment in the local community and discuss why they are considered important e.g. landfill, MRF

PDHPE*

PD3-7 proposes and implements actions and protective strategies that promote health, safety, wellbeing and physically active spaces

- identify situations where personal choices can influence their own and others' health, e.g. recycling
